About

I am a 22 year Computer Science student on my 3rd year spezializing in Data Science, with a strong foundation in mathematics and software engineering.

Work Expirience

Danish Red Cross Youth

Graphic Design Student

2018 - PRESENT

Wahl & Ross

Electronics Student Help

2015-15, 2018-18

Arduino / IoT / Raspberry Pi

Education

University of Copenhagen

Bachelor in Computer Science

Relevant courses:

- Modelling and analysis of data: Applied data analysis, SVM, PCA
- Data Science: Data pipeline, web scraping, database design, project in practice
- Elements of Machine Learning: PyTorch, CNNs, Medical image analysis

2018 - PRESENT

Vibenshus Gymnasium

Copenhagen

2015 - 2017

Skills

- Experience in python (Mainly for machine learning tasks and data science in general)
- Data visualization
- Various programming languages
- ... and lots of other skills - please don't hesitate to ask me

Languages

I am fluent in both written and spoken Danish and English on a professional level
